About Hoshiarpur (Punjab)

Hoshiarpur is a district of the state of Punjab in northern India. It is one of the oldest districts of Punjab. The region is known as Land of Saints. It is situated in the Shivalik Hills, which are foothills of the Himalayas. Hoshiarpur is also known as the door to Himachal and Himalayas.

Panjab University, Chandigarh

Panjab University is the fourth Oldest University of the Country. It was established in 1882 at Lahore (now in Pakistan). The University acquired this campus at Chandigarh in 1955-56. It is a University of national character and stature by virtue of its age, experience, achievements and philosophy. The University has 188 affiliated colleges spread over Punjab and also has one Rural Regional Centre at Kauni, and 3 Regional Centres at Muktsar, Ludhiana and Hoshiarpur.

Panjab University SSG Regional Centre, Hoshiarpur

Panjab University SSG Regional Centre (PUSSGRC), Hoshiarpur established in 2006 is an off-campus Establishment of Panjab University, Chandigarh. Within a short span, it has set Quality Standards in Education.

The Constituent Institutes of this Campus are

- University Institute of Engineering and Technology
- Department of Computer Science and Applications
- University Institute of Legal Studies

Department of Mechanical Engineering

The Department of Mechanical Engineering came into its existence right from the inception of the Regional centre in the year 2006. The department started offering undergraduate courses leading to four year Bachelor of Engineering (B.E) degree in Mechanical Engineering in the year 2006.

Conference Objective

The Objective of "2nd National Conference on Mechanical Engineering" (NCME-2015) is to bring Researchers and Experts from academia and industry on a common platform to discuss, share and create awareness about the latest technologies adopted in the field of Mechanical Engineering. It will help in bridging the gap between academia, research and industry, which is need of the day.

Conference Topics

- I.C. Engines
- Heat transfer
- Fluid Mechanics/ Fluid Machinery
- Refrigeration and Air Conditioning
- Fuel Propellants
- Machine Design, CAD/CAM
- Vibration and Noise
- Robotics, Mechatronics
- Artificial Intelligence and Optimization Techniques.
- Conventional and Non-conventional Manufacturing Processes
- CAM, FMS, CAE, CIMS, RPT, FEM, CAPP
- Quality control and Management, JIT, TQM,
- Nano technology, Advanced Materials.
- Fracture Mechanics
- Renewable energy Resources
- Computational Fluid Dynamic
- Surface Engineering
- Modeling and simulation
- Cryogenics
- Tribology
- Machine Design and dynamic

The topics are indicative but not limited to these.
