

ABOUT

Panjab University opened a Regional Centre for imparting quality technical education to kandi area hoshiarpur with the name of Swami Sarvanand Giri Panjab University Regional Centre in year 2006 with four branches of engineering. In 2007 Panjab university started two new courses in LAW as BALLB 5 year integrated course and 3 Years LLB course, and Master of computer applications (MCA).

Vision

To develop young professionals through experiential learning hinged on evolving societal mores as per global needs.

Mission

To promote professional education through the use of ethical based technology oriented education and to prepare students for a career as per global requirement.

DIRECTOR'S MESSAGE

It is certainly an exceptional opportunity to represent an institute of immense calibre, the Panjab University Swami Sarvanand Giri Regional Centre (PUSSGRC). I hereby take the humble privilege of introducing to you all this premier institute, Panjab University Swami Sarvanand Giri Regional Centre – an off campus wing of Panjab University, Chandigarh, this institute has come a long way while continuing

the voyage to touch the stars. Situated at an idyllic and peaceful place at environs of Hoshiarpur in Punjab, its location serves as an added advantage and hence bestows the student's ample opportunities and complete support to chase their engineering aspirations to the highest level attainable. The institute's infrastructure is peerless being built in the nature's lap. The faculty has unparalleled intelligence and dedication. Apart from the conventional classroom teaching, it grooms the students for extra co-curricular activities as well. It makes spirited endeavors to help students to acquire factual as well as experimental knowledge to hone their talent. The institute as a whole offers a slew of opportunities to unleash the latent potential of its students. This off the beaten track exertion for the students helps them in accomplishing their long term aim of being successful in their professional life. I thereby wish to arm that the technical world has a lot to gain from the alumni of this institute, be it Computers, Electrical, Electronics, Mechanical or MCA field.

DCSA

Department of Computer Science and Applications, Hoshiarpur

MCA (Master of Computer Applications) course has been exclusively designed to meet the latest challenges of IT industry. The well balanced course significantly emphasizes on planning, designing, coding and testing the complex commercial/scientific application and system software. The course covers the various subjects related to computer Science\IT technology as per latest trends. A three years full-time MCA course is not just a postgraduate course; it is also a complete professional grooming for students for a successful career in IT Industry.

MCA-LAB

The faculty is well versed in their subjects. The lush green environment, well equipped laboratories and infrastructure make it one of the ideal places of education. Hostels with mess facilities are an overhead advantage to students coming from distant places.

ADMISSIONS

Admissions in the campus are on the basis of PG-CET (MCA) conducted by Panjab University Chandigarh. For more details on PG-CET visit: www.cetpg.puchd.ac.in
