

Dear Sir/Madam,

Greetings of the day!

We would like to draw your attention to our company.

We are a leading Edutech company located in Noida (NCR) providing the best skills training along with guaranteed internships with excellent training on the latest skills in the industry.

We would like to introduce ourselves as "**Studlence Edutech private limited**" a firm providing the highest standards of quality and professionalism.

We(<https://www.studlence.com/>) have a pool of Internships like **Python Programming, Python projects, Web designing, Web projects, Data Structure, Cloud technologies (AWS), etc.** with live webinars for the students.

We do have internships in language skills like **French and Spanish Language** so that students can enhance their skills by using our platform.

Although, we are powered by KADS Consultancy so we also specialize in IT, Telecom and other Non-IT industries. Over a very short period of time we have garnered many clients and cater to some Tier 1 listed companies(Like L&T Technology, Iris Software, Coforge, NEC etc)

Leave your task of internship search in the reliable hands of our team and use the time for business growth and expansion so we can be of service over and over again.

Our aim is to add excellence to the career path of every student.

It would be great if you can share this with each student of your college so they can take a step ahead for their careers.

**Best regards,
Team Studlence
